52	112	Check Footer Links	After Click on Help link, Check Page is Redirected to Help Page or not	Internet, Browser & Website in working condition	1. Enter URL in Address Bar 2. Sign up for facebook 3. Click on Help link		Page should be Redirected to Help Page	As per Expected Result	PASS
53	112	Check Footer Links	After Click on Contact uploading and non-users link, Check Page is Redirected to Contact uploading and non-users Page or not	Internet, Browser & Website in working condition	1. Enter URL in Address Bar 2. Sign up for facebook 3. Click on Contact uploading and non-users link		Page should be Redirected to Contact uploading and non-users Page	As per Expected Result	PASS

Test Scenarios		
Whatsapp Chat Message		
Sr. No.	Positive Scenarios	Negative Scenarios
1	Verify that user can send and receive message to contact	Verify if the user wants to forward message to more than 5 person
2	Verify that user can send picture to contact	Verify if the user wants to forward message to more than 1 group
3	Verify that user can receive picture from contact	Verify if the user wants to copy PDF file
4	Verify that user can send contact number to other user	Verify if the user wants to forward photos without download
5	Verify that user can receive contact number/information from other user	Verify if the user want to forward videos without download
6	Verify that user can send and receive the emojis	Verify if the group admin want to remove member more than one number at a time
7	Verify that user can access the camera from what's app	Verify if the group admin wants to make group admin members more than one member at a time
8	Verify that user can send and receive the voice message	Verify if the user wants to forward more than one message from group
9	Verify that user can send and receive location	Verify if the user wants to send voice message while tap on voice message option
10	Verify that user can voice call and video call	Verify if the user wants to mute notification for 6 months or 1 year
11	Verify that user can make a group .	
12	Verify that user can add new members in group	
13	Verify that user can remove members from group	
14	Verify that user can make a admin to other group members	
15	Verify that user can delete message for him/herself	
16	Verify that user can delete message for everyone	
17	Verify that user can mute notification	
18	Verify that user can select mark as unread message	
19	Verify that user can send and receive payment/money from what's app	
Pen		
Sr. No.	Positive Scenarios	Negative Scenarios
1	Verify the types of pen whether it is Gel pen, Ball pen or Ink pen	Verify if the pen working on different surfaces like glass plastic etc
2	Verify the logo of company on pen is visible proper or not	Verify if the pen working normally after immersing with any liquid
3	Verify the name of company on pen is visible proper or not	Verify the pen working in different temprature as per requirement
4	Verify the types of material use as per specification or not	Verify the pen working at different angle
5	Verify the pen is with cap or without cap	Verify if the written by pen is erasable or not
6	Verify the color of ink as per requirement or not	Verify if the pen support multiple refill or not
7	Verify the grip of pen is comofortable or not	Verify if the pen ink overflow at some temprature
8	Verify if the written text by pen waterproof or not	Verify the how smooth the user can write at different surfaces
9	Verify the outer body of pen, Check it is metalic,plastic or other material	Verify the performance of pen while user use continuous of pen
10	Verify the thickness of ink in pen as per requirement ot not	In case of pen with cap while user keep pen in pocket for long time and than check performance of pen, it should not be break the letters
11	Verify the weight of pen it should not be too heavy	Verify if the user give pressure on point and than written on paper

12	Incase of cap, the cap should be perfectly fitted with grip	Check the performance of pen at zero gravity

Pen Stand

Sr. No.	Positive Scenarios	Negative Scenarios
1	Verify the design of stand as per specification or not	Check that if the user put more pen in stand it should not be drop from it's place
2	Check the how many pen can stand simuntaneously	Check the weight of the pen stand, it should not be too light
3	Check the height and width of stand as per specification or not	Check if the stand drop from some height it should be unbreakable
4	Verify the material of stand made by plastic, glass, steel or any other material	In case of extra features it should be fitted properly like clock, image etc
5	Check the Logo & Text of company visible or not	Check the pen stand keep balance at different surfaces
6	Check the durability of stand	

Door

Sr. No.	Positive Scenarios	Negative Scenarios
1	Verify the type of doors like normal door , security door , bank locker door, vault door or sliding door	Verify if the user try unlock door with another key it shouldn't be opened
2	Check the durability of door as per specification or not	Verify if the user kick on door, it should not be broken
